## **ERC 2023 in Romania**

Dear Horatio,

In our capacity of the promoter and Commercial rights Holder for both the FIA World Rally Championship and FIA European Rally Championship I can confirm our ongoing discussions about Romania joining the 2023 ERC calendar.

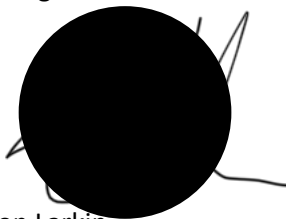

In order for this bid to be successful, it will require comprehensive financial, logistical and materiel support from all levels of government and other partners.

We believe that the rally's move to ERC-status would provide a return-on-investment worth many times the contributions and will seek to return Romania's international standing not just in motorsport but in the world sporting standings.

A non-disclosure agreement is in the process of being executed so that financial conditions can be fully discussed, but we hope that any and all negotiations can continue towards this mutually beneficial outcome at the same time.

We would see this is a great step towards securing the future of Romania in the ERC calendar in the near future.

Kind regards

Simon Larkin  
Senior Director - Events
